Marriage Mosaic is a unique conference experience with many components designed to build healthy marriage relationships.

We will begin with the Flag Page. Discover what is right about you! No, it's not another personality test! The Flag Page is your chance to see how you succeed in life, what motivates you and how you are different from the people close to you. Go to: www.flagpage.com All this for the purpose of understanding yourself and understanding your spouse.

Second, we will look intently at healthy communication skills and spend some time in practice. The goal here is to develop a deeper level of understanding; both of ourselves and our spouses. We believe such understanding enables us to communicate love, respect and experience a deeper level of intimacy. We use the pronoun "we" here because our own marriage benefits and grows as we walk through this material with others. For Marriage Mosaic, we have pulled together books, studies and resources that we have found to be life giving relationally. We have used the tools offered by the various authors in our own marriage, counseling, mentoring and small groups.

Third, we will share much of our own story; how a broken marriage journeyed its way back to health...and imperfectly continues in that direction. Please join us.
